

**SUBJECT 2 — DOCKET 2026-1 — APPROVED AS DOCKETED — Concluded**

**Comment:** Various items applying on clocks, watches, or parts thereof are canceled with reference to new item 48850, which provides the FCDC's 13-subprovision density scale and a "viz." format. Note, item 196425 is canceled with reference to the new item.

Item 48730 is canceled with reference to new item 48800, naming "Clocks, floor-standing, or Grandfather Clocks," which provides classes predicated on the height-to-shortest-base-dimension ratio and on density. The "👉" symbol is added to the description of the new item. Note, item 48731 is canceled and reestablished as Note, item 48801. Notes, items 48802 and 48803 are established to provide additional packaging requirements, while Note, item 48804 is established to clarify the application of the new item.

Item 48750 is canceled with reference to new item 176100, naming "Signs or Clocks, neon or faux neon." The new item provides classes predicated on a modified density scale, with a one-class adjustment from the FCDC's minimum density guidelines. The "👉" symbol is added to the description of the new item. Concurrently, Note, item 176101 is established to clarify the application of the new item, and Note, item 176102 is established to provide additional packaging requirements.

Additionally, six Notes and the Clocks Group generic heading, item 48650, are canceled with no further application. Item (Rule) 172 is amended to remove reference to item 196420.
