

**SUBJECT 4 — DOCKET 2026-1 — APPROVED AS DOCKETED — Concluded**

Item	Description	Class
161857	NOTE—No Change.	
⇒161858 (NEW)	NOTE—Printed matter tendered for shipment on lift truck skids, pallets or platforms must not overhang the skid, pallet or platform deck, and all exposed surfaces and edges must be protected by packing forms or other packaging materials so as to withstand the normal rigors of the less-than-truckload environment. Printed matter in rolls must be secured to the lift truck skid, pallet or platform by strapping or other packaging methods to prevent shifting of the load. Printed matter sheets stacked on lift truck skids, pallets or platforms must be secured to the lift truck skid, pallet or platform by strapping in opposing directions, with at least two straps in each direction. All corners and strapping contact points must be protected by packing forms.	

**Comment:** Various items applying on advertising materials are canceled with reference to one of or a combination of the full-scale, density-based provisions of items 20580, 49260, 49880, 70970, 98390, or 161855. In some instances, the involved items are canceled with reference to items otherwise applicable.

Concurrently, the “viz.” listings in items 49880, 98390, and 161855 are amended. Additionally, seven Notes and the Advertising Group generic heading, item 4640, are canceled with no further application. New Note, item 161858, is established to provide additional packaging requirements for articles moving under item 161855.

**SUBJECT 5 — DOCKET 2026-1 — APPROVED AS MODIFIED — Concluded**

**Comment:** As modified, various items in the Building Metalwork Group are canceled with reference to item 35850, which provides the FCDC's 13-subprovision density scale and is amended to provide a "viz." format. Notes, items 35932, 36842, and 37282 are canceled with reference to new attendant Note, item 35851 to clarify the application of the articles within the "viz." New Note, item 35852 is established attendant to item 35850 to provide additional packaging requirements. Additionally, two Notes are canceled with no further application. Concurrently, item 36150 is canceled with reference to the full-scale, density-based provisions of item 95190, and item 36590 is canceled with reference to item 34780.
